

Nexora • The WhatsApp AI sales agent

No sale should be lost to waiting.

Your customers message you at 11 p.m., on Sundays, during your busiest hour. Nexora answers every one of them in seconds, sends the quote, raises the invoice and follows up, while your team stays in control.

What waiting costs you

Businesses that reply to a lead **within one hour are nearly 7× more likely** to have a real conversation than those that wait an hour longer, and **over 60× more likely** than those that wait a day. *(Harvard Business Review, 2011)*

What Nexora does
